Holland Dining Chair HL-HND-TK-DSC

Product Images

Description

The Holland Dining Chair by Harmonia Living features a clean, minimalist design that will add warmth and style to your outdoor dining experience. This collection offers a unique Mid-Century Modern look that is both classic and timeless. Its natural wood finish will create a relaxing atmosphere, while its distinctive, angled legs and bold curves will add contemporary flair to your favorite outdoor space. The chair is made with Grade A plantation harvested teak, which is ideal for frequent use outdoors. Each Holland piece is made to compliment the next, creating a complete outdoor experience.

 - Seat Height (With Cushion): 19.75
 - Back Height: 10.75
 - Arm Height: 28.25

Features

- Made from sustainable certified V legal, Grade A teak is harvested responsibly. Grade A teak is from mature trees that features grain that is more even, and color that is more consistent than lesser grades of teak.
- Teak is dense hardwood that is naturally oily which offers benefits over other natural woods including resistance to light, heat, moisture and pest damage.
- New teak wood furniture will have a warm golden hue that patinas to a silvery grey over time. Letting the teak patina will not compromise the integrity of the wood, however, to keep the golden color, clean the teak furniture about once a year and apply a thin layer of teak oil.
- Plastic foot glides help to protect your patio from scratching and also to help keep the furniture protected from dirt or water that can accumulate on the patio.
- Cushions are made in America using American materials including Sunbrella, Outdura and Revolution performance fabrics which are easy to clean, are fade, stain, mildew resistant and carry a 5 year warranty.

- Machine washable cushion covers feature durable and frustration free YKK brand zippers for easy removal. Top and bottoms of our seat cushions are identical so they can be flipped if a stain gets on the cushion between machine washes.
- All cushions are sewn with PremoBond brand marine-grade UV treated thread made from high-quality mold, mildew, and rot resistant bonded polyester to ensure your cushions won't fall apart at the seams.
- Each seam is finished with overlock stitching for additional durability, reinforcement, weather proofing and to prevent the fraying of internal fabric edges during machine washing.
- American made CertiPUR-US® certified foam cushion inserts which are produced without harmful chemicals such as formaldehyde, ozone depleters, PBDEs, TDCPP or TCEP flame retardants and are free of mercury, lead, and other heavy metals to protect the planet as well as the health of you and your loved ones.
- Thick 2" foam cushion inserts creates a cushion that's firm enough to avoid bottoming out, but soft enough for comfort.
- Cushion ties are sewn to the back of each seat cushion to secure them in place to the frame.
