- Each piece is a unique work of art, handcrafted by skilled artisans who are masters working with reclaimed teak.
- Made from reclaimed from deconstructed buildings and bridges, there is no harvesting of new teak trees to make this furniture.
- Teak is dense hardwood that is naturally oily which offers benefits over other natural woods including resistance to light, heat, moisture and pest damage.
- New teak wood furniture will have a warm golden hue that patinas to a silvery grey over time. Letting the teak patina will not compromise the integrity of the wood, however, to keep the golden color, clean the teak furniture about once a year and apply a thin layer of teak oil.
- Plastic foot glides help to protect your patio from scratching and also to help keep the furniture protected from dirt or water that can accumulate on the patio.
