Description

With a mixture of elegant materials, the Olio Outdoor Club Chair by Harmonia Living is an imagined Mid Century Modern design brought to life with Olefin rope and carefully selected powder-coat frame finishes. This club chair was efficiently designed to be both compact in its footprint while still offering full sized deep seating comfort. Accented with tapered legs, subtle curves and an intertwining roped back for flair, the silhouette of the Olio collection is a sophisticated work of art. Constructed with a fully welded rust proof aluminum frame and completed with plush, zippered outdoor cushions made in America from Sunbrella, Revolution and Outdura fabrics, the Olio is truly built for life outdoors. Additionally, the club chair can stack or nest for seasonal storage making them ideal for both residential and contract settings.
