## Description

---

Mixed materials, stunning proportions and modern lines are the hallmark of the Alto Club Chair by Harmonia Living. The powder coated, thick gauge, and rust proof aluminum frames are complemented with braided Olefin rope armrests that are both visually appealing and functional. The wrapped armrests give padding as well as heat moderation to improve comfort during hot or cold days. Alto's scale and ergonomics were deliberately chosen to provide deep seating comfort that anyone can appreciate. The modern Alto Club Chair frame is complete with plush, zippered outdoor cushions made in America from Sunbrella, Revolution and Outdura fabrics to withstand the outdoors year after year in both Residential and Commercial settings

- Frame Height: 28"
- Seat Height (No Cushion): 12"
- Seat Height (With Cushion): 17.5"
- Back Height: 16"
- Arm Height: 24.75"

## Features

- Olefin rope wraps around the frame to provide padding as well as heat moderation for improved comfort on hot or cold days.
- Plastic foot glides help to protect your patio from scratching and also to help keep the furniture protected from dirt or water that can accumulate on the patio.
- Cushions are made in America using American materials including Sunbrella, Outdura and Revolution performance fabrics which are easy to clean, are fade, stain, mildew resistant and carry a 5 year warranty.
- Machine washable cushion covers feature durable and frustration free YKK brand zippers for easy removal. Top and bottoms of our seat cushions are identical so they can be flipped if a stain gets on the cushion between machine washes.
- All cushions are sewn with PremoBond brand marine-grade UV treated thread made from high-quality mold, mildew, and rot resistant bonded polyester to ensure your cushions won't fall apart at the seams.
- Each seam is finished with overlock stitching for additional durability, reinforcement, weather proofing and to prevent the fraying of internal fabric edges during machine washing.
- American made CertiPUR-US® certified foam cushion inserts which are produced without harmful chemicals such as formaldehyde, ozone depleters, PBDEs, TDCPP or TCEP flame retardants and are free of mercury, lead, and other heavy metals to protect the planet as well as the health of you and your loved ones.
- Thick 4.5" foam seat cushion inserts plus additional layers of 1" of quick-drying Dacron on the top and bottom to help wick away moisture. This combination of layers creates the "Goldilocks" of cushions, firm enough to avoid bottoming out but soft enough for comfort.
- Back cushions are filled with 100% polyester fill fibers for a cloud-like back rest. The insert is sewn shut in a mesh encasing to keep the filling clean and easy to unstuff.
